Measures: Individual wheels brake force in Newtons. Showing left to right imbalance and front to rear distribution. Optional brake pedal force meter.

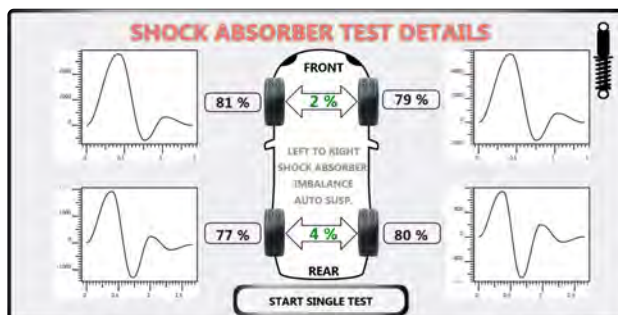

Measures: Left to right hand brake imbalance, for cable style handbrakes.

Measures: Front and rear axle weight as well as total vehicle weight up to 4,000kg, indicating left to right weight imbalance.

Measures: Toe in and toe out of front and rear wheels.

Measures: Shock absorber rebound shown as a percentage indicating left to right shock absorber imbalance for front and rear wheels.
